## Resource Conservation District

HERALD | SLOUGHOUSE | WILTON

SRCD Groundwater Sustainability Fee  
 Data Verification Efforts Update: August 6, 2021

Sloughouse RCD submitted our final list of impacted parcels to the County of Sacramento on August 6, 2021. The table below lays out the final results of the Cosumnes Subbasin Groundwater Fee. The Groundwater Sustainability Agencies implementing a fee in the Cosumnes Subbasin worked collaboratively to evaluate the data from the Department of Water Resources before submitting data to the County. This resulted in a significant number of corrections from the DWR data.

GSA	# of Corrections	Final # of Impacted Parcels	Final # of Impacted Acres	Change in Revenue	Final Anticipated Revenue
Sloughouse RCD	252	298	15,487	-\$20,603	\$154,876
Galt ID	354	453	16,180	-\$22,720	\$161,807
Clay WD	6	25	2,189	-\$3,167	\$21,889
County of Sacramento	13	96	6,483	-\$7,336	\$64,834
Omochumne-Hartnell WD	70	94	2,489	-\$4,832	\$24,893
<b>TOTALS</b>	695	966	42,828	-\$58,658	\$428,299

**Process for Future Adjustments:**

Adjustments to our direct levy data can be made, at a cost to the Sloughouse RCD, before September 3, 2021. Otherwise, adjustments will be addressed through the formal appeals process as laid out in the Sloughouse Resource Conservation District Groundwater Sustainability Fee Resolution (available at [SloughouseRCD.org/GroundwaterFee](http://SloughouseRCD.org/GroundwaterFee)).
